Disputed Items Log

February 10, 2026 — Robert Vega (Debtor) Voicemail

Debtor disputes $28,000 of the principal balance, claiming three loads were never delivered. Debtor states they have BOL (Bill of Lading) discrepancy documents as evidence and will be submitting them.

February 17, 2026 — Collections Agent Ana Torres

Reviewed BOL documents provided by debtor. Two of the three disputed loads show confirmed delivery with debtor's own warehouse personnel signatures on the Proof of Delivery (POD) documents. Third load totaling $8,400 has no POD on file from original creditor. Escalated to Swift Haul Transport for documentation.

February 24, 2026 — Swift Haul Transport (Original Creditor)

Original creditor provided POD for two confirmed loads, validating delivery. Third load POD remains missing from creditor's files. Driver who handled the delivery has retired and cannot be reached for statement. GPS records from truck show vehicle was at debtor's warehouse address during the scheduled delivery time window.

Critical Unresolved Issue

Missing Proof of Delivery: One load valued at $8,400 lacks documented POD. While GPS records support delivery to debtor's location, the absence of signed POD weakens legal position if debtor contests delivery in court proceedings.

Collections Status: This represents approximately 16% of the original principal balance ($8,400 of $52,300).

Important Legal Notices (FDCPA)

This is an attempt to collect a debt. Any information obtained will be used for that purpose.

Under the Fair Debt Collection Practices Act (FDCPA), you have the right to:

- Dispute the validity of this debt within 30 days
- Request verification of the debt
- Request the name and address of the original creditor

Current Dispute Status: Debtor disputed debt on February 10, 2026. Partial validation provided for $43,900 of principal. Remaining $8,400 lacks complete documentation.
